

ATLAS MATCH

To Our Valued Customers,

We are now headed into month four of the coronavirus. Like you, it has hit us hard and we are adapting daily.

Our sales and customer service reps are all working remotely. We have folks in the West, Southwest, Southeast and Northeast. We are grateful that they are all safe and working remotely.

In New Hampshire, which is not experiencing a surge in virus cases, we are operating our plant. Made In USA has been a blessing for us, because we can produce and ship your orders without worry about import disruptions.

Our plant workers and corporate staff are safely distancing and masking-up. We are operating our normal shifts by employing the safety protocols recommended by the State, Local, and National guidance.

How Can We Help You?

Right now, every business across the country faces challenges unique to your business recovery.

We can help by providing custom advertising on promotional matches and coasters.

These are inexpensive and effective methods for communicating with your customers.

Contact us today, to begin a new order or to re-order your usual product. We will connect you with the right contact to manage your order. The product will be manufactured right here in the USA, at our New Hampshire plant.

Sincerely,
The Atlas Match Team
